Sept 1, 2017

To Whom It May Concern:

Due to advances in technology and the development of more current surgical power instruments, we will be discontinuing production of the System 6 battery powered handpiece system on December 31, 2016. The product numbers affected are:

6203-000-000 Single Trigger Rotary Handpiece  
6205-000-000 Dual Trigger Rotary Handpiece  
6206-000-000 Reciprocating Saw  
6207-000-000 Sternum Saw  
6208-000-000 Sagittal Saw  
6209-000-000 Precision Saw

We will continue to provide service, as well as batteries, attachments and sterilization cases, until December 31, 2021.

With the development of System 8, we are now able to offer our most technologically advanced battery powered devices. System 8 combines the quality you have come to expect from Stryker with additional features such as Stryker SmartLife lithium-ion batteries with exclusive ACP Technology Software.

As a leader in the industry, it is our commitment to continue investing in technological advancement and comprehensive service options in partnership with our customers for your future needs. Please contact your local Stryker Account Representative for more information on our latest offering of surgical products and services.

Best regards,

Denis O'Sullivan
